ENVIRONMENT AND CLIMATE CHANGE POLICY			

FE Indorama Agro LLC (the Company) is committed to effective Environmental Management as an integral part of our business with the aim of minimizing impact on the environment and reducing our impact on climate.

We will:

- Comply with applicable national, regional, and local environmental regulations, and good international industry practice.
- Develop, implement, and maintain environmental management systems aligned with our commitments and beliefs.
- Establish clear and measurable targets & objectives and arrange to implement and maintain mechanisms for measuring, evaluating, and improving performance throughout the company operations to ensure continuous improvement.
- Avoid, reduce, and or mitigate impacts to the environment and neighbouring communities, and where feasible improve and enhance environmental conditions in active engagement with communities and related stakeholders.
- Minimise the consumption of water, energy, materials, hazardous chemicals, and other resources and take effective measures towards soil and pest management.
- Recover, recycle, reuse, and reduce waste to minimize environmental discharge and impacts.
- Design, construct, operate, and close storage facilities and other assets in compliance with established procedures, applicable laws, and regulations and in alignment with good international industry practice.
- Prevent adverse environment impact, conserve natural resources, minimize waste generation through process improvements, and by adopting environmentally friendly and energy efficient technologies.
- Minimise and mitigate biodiversity risks throughout our businesses and integrate biodiversity conservation with business needs throughout the project lifecycle.
- Assess our climate-related risks and implement mitigation and adaptation measures, promote resource efficiency, adopt low-carbon technologies and ensure process optimisation for decarbonisation of our business operations.
- Establish and implement programs to reduce our greenhouse gas emissions and achieve carbon abatement means in line with the company and national requirements.
- Adopt appropriate environmental requirements in our procurement processes and proactively engage with our stakeholders to ensure alignment with our values, ambitions, goals, commitments and performance of environment and climate change.
- Communicate information related to environment and lessons learnt in a clear, transparent, and diligent manner with all communities and related stakeholders.
- Promote training, and awareness among our employees, goods, and service providers, to act in an environmentally responsible manner.

IAL will implement this policy and will measure and report progress and performance on a periodic basis. This policy will be reviewed every 2 years.
